

Save up to \$2,250 with our DSX CableAnalyzer™ Inflation Buster Offer.

Purchase a qualifying DSX2-5000 or DSX-602 tester between November 28, 2022 and March 31, 2023 and get up to \$2,250 in cash back.

Cable, connectors, racks—if you can get them, the price keeps going up. That’s inflation. To help you fight back, Fluke is offering cash rebates for purchases of selected DSX CableAnalyzers. Here’s how to get your cash:

1. Purchase a new DSX2-5000 or a DSX-602 CableAnalyzer from an authorized US or Canadian distributor between **November 28, 2022** and **March 31, 2023**.
2. Submit a copy of your invoice at www.DSXinflationbuster.com
3. Collect your payout based on the model and date purchased as per the table below. **Add Gold to your purchase to increase your rebate by \$250!**

	Invoice date from November 28 to December 31, 2022	Invoice date from January 1 to March 31, 2023	Additional Rebate if Purchase includes Qualifying Gold
DSX-602	\$500	\$500	\$250 (CAN: \$350)
DSX-602-NW			
DSX-602-PRO			
DSX2-5000	\$1,750 (CAN: \$2,250)	\$1,500 (CAN: \$2,000)	
DSX2-5000/GLD			
DSX2-5000-NW	\$2,000 (CAN: \$2,500)	\$1,750 (CAN: \$2,250)	
DSX2-5000QI			
DSX2-5000QI/GLD			

The DSX2-5000 is the efficient choice for copper certification, designed with our project-based UI that cuts copper and fiber certification costs up to 65% as compared to older testers. Report your all your results with the industry’s de facto standard LinkWare software or LinkWare Live cloud service with over 80 million results uploaded to date. If you’re testing copper and fiber, check out the DSX2-5000/QI which adds fiber loss testing and inspection. The DSX2-5000 features a modular design allows you to add OTDR testing as well. If you’re working on a tight budget, the DSX-602 offers the same copper testing abilities without the ability to add fiber testing. Protect your purchase with our Gold support agreement for free loaners, annual calibration and more and increase your rebate by \$250.
